

Kathleen's Modelling 2021

Kathleen is inspired to model because photographs are worth a thousand words, and she believes that models can use their images to bring attention to critical issues.

Kathleen has over 200 magazine publications as of 2023, with sets that reflect her humanitarian efforts with an intent to show fashion as meaningful, affordable, and accessible.

Kathleen not only does the modelling, but also has a hand in some of the set design including location, backdrop, props, hair and makeup, outfit selection, as well as photography and editing.

No part of the process is complete without a full team of photographers, publishers, and other collaborators. Kathleen loves being part of a team!

Her behind-the-scenes presence is known under her real name, but in front of the camera, she has created the stage name "Angel Paige" to show herself as "a messenger of the Gods."
